Prateek

Structure, the edge with Agency, money and limits. ★ = ask first.

Name and role: _____ Date: _____

QUESTIONS

1. People ★ Your seam note says Procurement lives on both sides, and the HR chart puts the Furniture division inside Production, but we were told Procurement and Furniture are Agency. Which is right for each? Is Branding the Printing, Acrylic and CNC department?

2. People ★ What does each top manager look at? When PMs update the boss, who is that? Who settles it when department heads disagree?

3. Flows ★ What is in the handover pack today, who builds it, and in what form? Your clash note says there is no BOQ per stand and no colour codes on the drawings, but our PMs say both arrive. Can we open one real technicals pack together?

4. Flows ★ After release, how should a design change reach Build? What are the DMS and the Build Spec, and when will they exist? Who raises a change order? What must Build send back (schedule, site dates, client questions), and to whom?

5. Edge ★ When will Stand Studio be live? If it is late, can Build start with stands typed in by hand?

6. Edge ★ Which side of the dashed line is the PM: RAVS or Build? What do RAVS and AI engineer stand for? Who agreed that your map wins up to release, and may Build add to the handover pack?

7. Money Who in Build may see prices? Does anyone compare planned and actual cost? Which accounting software does Accounts use?

8. Outside How often do we use outside companies, which ones, and who keeps the list? Would outside people ever use our system? Who builds our stands overseas?

9. Limits ★ What would success look like, and by when? Can I have the approved tools list (Annex A), any data rules, the budget for phones and Wi-Fi, and the name of my backup person?
